Title of Change:

Deliver Patch for GSFC Only EDGRS Release 2.06

Attached and below addresses a patch delivery to EDGRS OSS Scripts Release 2.06b. This replaces the patch recently provided for GSFC. THIS PATCH PERTAINS TO GODDARD DAAC ONLY !!!!!

Please provide delivery as a patch release to the Goddard DAAC. If you have any questions on the content of this delivery for your packaging process, please contact me at 301-794-2130.

The following files are attached in a zip file to this email. They are defined as follows:

1. 'Patch instructions.txt'
2. s.edgrs-goddardpatch1-with correction via FTP

In addition, it may be necessary to set the value of the environment variable \$HOME to /home/edgruser. Transferring files via FTP avoids PC/Unix conversion issues.

These scripts have been tested at the GDAAC by Gary Lake.

Please read the patch instructions. If there are any questions on this installation, please contact Daryl Brydie at dbrydie@csc.com
phone: 301-794-2152

Notify the EDGRS Team via email to sadamson@csc.com after installation in OPS mode. The EDGRS team will then ensure that the scripts transferred the expected data.

(See attached file: s.edgrspatchforv2.06.zip)
